## SUMMARY

---

**Full-Stack Web Developer** with practical experience in the **MERN stack**, **Next.js**, **PostgreSQL**, **Redis**, and **Authentication Systems**. Passionate about building responsive web applications and learning modern software development practices through real-world projects.

## EDUCATION

---

|                |                                                            |                    |
|----------------|------------------------------------------------------------|--------------------|
| 2025 - present | MCA at <b>Silicon University, Bhubaneswar</b>              | (CGPA: 8.86/10)    |
| 2022 - 2025    | BSc. CS at <b>Khallikote Unitary University, Brahmapur</b> | (CGPA: 8.10/10)    |
| 2019 - 2021    | Class 12th at <b>Khallikote HS, Brahmapur</b>              | (Percentage: 85.3) |
| 2019           | Class 10th at <b>SSVM Ramahari Nagar, Brahmapur</b>        | (Percentage: 85.5) |

## SKILLS

---

|                         |                                                                              |
|-------------------------|------------------------------------------------------------------------------|
| <b>Technical Skills</b> | Web Development, DSA, UI Design                                              |
| <b>Languages</b>        | C/C++, Java, SQL, Python, JavaScript, TypeScript                             |
| <b>Frameworks</b>       | React, Next.js, Node.js, Express.js, REST APIs, OAuth, JWT, Tailwind, Shadcn |
| <b>Databases</b>        | PostgreSQL, MongoDB, Redis, MySQL                                            |
| <b>Tools</b>            | VS Code, Git, Github, Figma, Vim, Postman                                    |

## PROJECTS

---

### Fly High (*Self-Project*)

[Link to Demo](#)

- Built a full-featured flight booking web application using the **MERN stack**
- Implemented **secure authentication** and booking workflows using **JWT** and session management
- Designed **responsive UI** for browsing flights, booking tickets, and managing user profiles
- Integrated backend **APIs** for flight search, booking, and cancellation with real-time updates

### ToDoList (*Self-Project*)

[Link to Demo](#)

- Developed a task management web application using the **MERN stack**
- Implemented **CRUD operations** with real-time UI updates
- Added **persistent storage** and **dynamic routing** for seamless task handling
- Designed a clean, **responsive interface** for efficient daily planning

## ADDITIONAL INFORMATION

---

|                |                                                                                                                           |
|----------------|---------------------------------------------------------------------------------------------------------------------------|
| Languages      | English, Hindi, Odia                                                                                                      |
| Certifications | Web Development + DevOps cohort(100x Devs), Full-Stack Development (Udemy, Angela Yu), DSA Course (CodeHelp)              |
| Activities     | Classroom Representative (2023–2025), Final Year Project " <i>Fly High</i> " awarded with highest marks during graduation |
